Reference Code: **Ref. n.: 37/2021/WATDEV-SC/Coop.Ita.**

Date of publication: 21/12/2021

Deadline for application: 10/01/2022

Position: International expert

Job Type: Scientific coordinator

Duty station: Valenzano (Italy).

Duration of assignment: 48 months.

Starting period: at the end of the recruitment process

Profile: Scientific Coordinator

For the project " **WATDEV** Climate Smart **WAT**er Management and Sustainable **DE**velopment for Food and Agriculture in East Africa" (hereafter referred to as "the Project"), financed by the DG International Partnerships (INTPA) of the European Union (EU) under the EU initiative on "Climate-relevant Development Smart Innovation through Research in Agriculture in developing countries – **DeSIRA**" and implemented by the Italian Agency for Development Cooperation (AICS) in cooperation with CIHEAM Bari.

PROGRAMME DESCRIPTION

In line with the DeSIRA Initiative the WATDEV project aims to develop an in-depth understanding of small to large-scale water and agricultural resource dynamics and management and local communities resilience to climate change through innovative research, modelling, and capacity building approaches. Furthermore, WATDEV will wherever relevant, engage to assess the impacts and changes/adaptations of these technological innovations on water-energy and agricultural resources to support accounting, environmental, socio-economics and institutional sustainability.

WATDEV will extract lessons from previous experiences in water resources best management practices (BMP) and will match them with specific situations in study areas located in Egypt, Sudan, Ethiopia and Kenya. The project will integrate knowledge already available from recent and ongoing

research and operational projects and will upscale and outscale the BMPs through databases, modeling, technologies, and operational frameworks all included in a **water planning/management toolbox available for Researchers and Institutions** that will be one of the main deliverables and legacies of the project.

The overall objective of WATDEV is: Sustainability of agricultural water management and resilience of agro-ecosystems to climate change in East Africa and Egypt

Specific objective 1: National Ministries and Research Institutions improve their knowledge and management on water in agriculture

Specific objective 2: Farmers and local actors implement innovative/sustainable solutions and skills on water management

The European Union, represented by the European Commission (the “**Contracting Authority**”) or the first counterparty and the Italian Agency for Development Co-operation (AICS) hereinafter recognised as the “**Organisation**”, CIHEAM Bari hereinafter recognised as the “**Party**” have agreed to provide a financial contribution to finance the implementation of the WATDEV project. This Agreement establishes the rules for the implementation and for the payment of the EU Contribution, and defines the relations between the Organisation, the Contracting Authority and the Party.

CIHEAM Bari, as Party of this agreement, will be engaged in scientific, technical, research, modelling and management activities assigned by the project and will play a crucial role in towards the fulfilment and accomplishment of the project’s deliverables and milestones. To this end, CIHEAM Bari will engage in an active and frequent communication with project partners, especially those in Africa, to lead, monitor and coordinate all the project’s activities according to the agreed timeline and tasks allocated to each partner. By supporting improved water management in agriculture and sustainable land management the project will have a direct impact on improving crop yields and livelihoods of local population in the study areas and beyond.
